* Ties Meet Record

** New Meet Record

Notes: This was identified as the 3rd Annual City Championship and the first state qualifier not run in conjunction with a District Meet. The Duluth schools competed in the District Meet which was run on 5/14 and moved the City Meet to the week after the District and the same weekend as other regional meets.

The meet managers decided to take the records from the 1931 Duluth City Meet rather than from the 1931 State Qualifier.
